

Practical and Applied Arts Grade 8 Information Technology Animation (AN)				
Outcome	1 – Little Evidence With help, I understand parts of the simpler ideas and do a few of the simpler skills.	2 – Partial Evidence I understand the simpler ideas and can do the simpler skills. I am working on the more complex ideas and skills.	3 – Sufficient Evidence I understand the more complex ideas and can master the complex skills that are taught in class. I achieve the outcome.	4- Extensive Evidence I have a deep understanding of the complex ideas, and I can use the skills I have learned in situations that were not taught in class.
AN8.1 Design and create a simple 3d Animation using a prebuilt character.	With help, I can show how to use the different view ports and tools to animate a character.	I can find the right tools to use to animate a character with some guidance.	I can find AND use the correct tools to animate my character.	I can use some of the advanced tools in the software to create special effects and movements of my character.
	With help, I can organize my ideas, write a script, OR create my sketches.	I can organize my ideas, script, OR sketches with some guidance.	I can write a short script AND include sketches of how I want my characters to look.	I can write a short script, create sketches, and I know how I want the scene to be lit and what the camera will see.
	With help, I can get my characters to move.	My characters move in a jumpy or jerky way, and sometimes my character moves in ways I don't want.	I can make the characters move smoothly and naturally and perform any movement I want.	I can get my characters to do actions that are hard to make (e.g. flying or swimming).
	With help, I can follow the steps to needed to render my scene.	I can remember the order of the steps needed to render a scene with some reminders.	I can render out my scene without any help.	I can render out my scene in different formats for use in different software packages.
