DIVISION STRATEGIC PLAN UPDATE - SUPPORTING STUDENT LEARNING & ASSESSMENT AND STUDENT TRANSITIONS

Mrs. Joanne Sebastian , CTTCS Instruction and Learning Consultant, presented the Board with an update on the data available to date and the actions taken in the Supporting Student Learning & Assessment priority. In Christ the Teacher Catholic Schools, early learning achievement is assessed by classroom teachers on a regular basis, both formally and informally. The Early Years Evaluation (EYE) provides a leading indicator of children's development. It provides accurate data that helps teachers organize their instruction, increase learning time, and monitor each child's progress. The evaluation also informs parents about their child's progress in five key domains: Awareness of Self & Environment, Social Skills and Approaches to Learning, Cognitive Skills, Language & Communication, and Physical Development (which includes Fine and Gross Motor Skills). During the 2024-25 school year, the EYE will be used up to two times for each student in kindergarten, depending on the results of the initial assessment.

An update on reading achievement was also presented. Reading achievement is assessed by classroom teachers on a regular basis, both formally and informally with the use of teacher-created assessments and formally, typically administered a minimum of three times a year, with the *Fountas and Pinnell Benchmark Assessment* (F & P) or GB+ in French. Not only do the assessments provide classroom teachers with the very best information to design instruction that helps students reach their potential, they are also an indicator of division-wide progress. The F & P and GB+ are standardized assessments in that all students experience it in the same way and that their performance is benchmarked according to a common standard.

During the school year, the F&P is used three times for each student in grades 1-5 English and the GB+ is used three times for students in grades 2-5 French Immersion. The assessment has students read a series of increasingly difficult books and then discuss the text through a series of questions designed to assess their comprehension. The student's reading level is determined by the point at which he or she struggles to either read the text accurately or answer the comprehension questions.

Updates on the professional learning opportunities available to staff and Key Actions on the priority plans were reviewed.

Superintendent of Education Trevor Baker provided an update on the Student Transitions priority which seeks to foster connections for learners and their families while supporting transitions as learners enter and progress through school.
