

Physical Education Grade 3					
Active Living					
OUTCOMES		1 – Little Evidence With help, I understand parts of the simpler ideas and do a few of the simpler skills.	2 – Partial Evidence I understand the simpler ideas and can do the simpler skills. I am working on the more complex ideas and skills.	3 – Sufficient Evidence I understand the more complex ideas and can master the complex skills that are taught in class. I achieve the outcome.	4- Extensive Evidence I have a deep understanding of the complex ideas, and I can use the skills I have learned in situations that were not taught in class.
3.1 Health-Related Fitness I can apply a repertoire of strategies for developing components of health-related fitness, (cardiovascular endurance, flexibility, muscular endurance, and muscular strength), through movement activities during scheduled times in school, at home, and in the community.	Fitness	<ul style="list-style-type: none"> I require extensive guidance to engage in a few activities that include cardiovascular endurance, muscular endurance and flexibility exercises. I can consistently sustain moderate to vigorous movement activities that increase heart-rate and respiration for significantly less than seven minutes on a consistent basis. 	<ul style="list-style-type: none"> With guidance, I can engage in several activities that include cardiovascular endurance, muscular endurance and flexibility exercises. I can consistently sustain moderate to vigorous movement activities that increase heart-rate and respiration approaching seven minutes on a consistent basis. 	<ul style="list-style-type: none"> I engage in many activities that include cardiovascular endurance, muscular endurance and flexibility exercises. I can consistently sustain moderate to vigorous movement activities that increase heart-rate and respiration for seven minutes on a consistent basis. 	<ul style="list-style-type: none"> I can consistently and independently engage in activities that include cardiovascular endurance, muscular endurance and flexibility exercises. I can consistently sustain moderate to vigorous movement activities that increase heart-rate and respiration for more than seven minutes on a consistent basis.
	Warming up	<ul style="list-style-type: none"> I require frequent guidance to engage in a variety of individual and group activities that support proper warm up strategies. 	<ul style="list-style-type: none"> With guidance, I engage with limited understanding in some individual and group activities that support proper warm up strategies. 	<ul style="list-style-type: none"> I engage in many individual and group activities that support proper warm up strategies. 	<ul style="list-style-type: none"> I consistently and independently engage in a variety of individual and group activities that support proper warm up strategies.
